

Monthly Update

May 2023

The ENplus[®] Management organises the Market Surveillance Project - an initiative that aims to analyse ENplus[®] certified bags randomly taken from the market in order to assure compliance with the ENplus[®] standards. Anyone can contribute to the project by submitting a sample via [this form](#).

Agnieszka Kędziora-Urbanowicz from the Polish Pellet Council shares insights about the Polish pellet market and ENplus[®] impact. Read the interview [here](#).

The market share of ENplus[®] certified pellets is over 80% in Germany, Slovakia, Czechia, Romania and Austria last year. [More statistics here](#).

Do you know?

37% of all fraud cases identified in the past 9 years are of irregular use of the ENplus® trademark in marketing operations. Learn more about our [fraud management here](#).

A reminder to all the certified companies who need to update bag designs and submit them for reapproval before the end of 2023. All bag designs that have been approved before the publication of the new documentation (1.10.2022) need to be updated to meet the new requirements and submitted for reapproval.

If you are not aware of all the changes that were introduced with the ENplus® revision, check out [this document](#) or have a look at [this brochure](#).

The 10th Inspectors' Workshop took place in Brussels earlier this month and gathered many motivated inspectors who exchanged experience.

ENplus® organises training for inspectors who want to perform ENplus® inspections of pellet production plants and pellet trader facilities from. The event will take place in Austria (19-21.06.2023). [Learn more](#).

In the second half of the year, Quality Managers training events can be expected in Poland, Croatia, Brazil and Belgium, as the one in Brussels will be in English and will be open to quality managers from any country.
