

Monthly Update

October 2023

As a certification scheme, we care about the opinions of all the actors in the pellet market. With our consumer survey, we would like to get feedback from the pellet consumers and learn more about their experience. If you use pellets at home, do not hesitate [to complete it](#).

Ludmila Smolenschi from ENplus[®] Head Office informs us about the importance of the pellet bag design re-approval. Check out the full interview [here](#).

Changes brought by the scheme's revision

Reminder to the traders that are bag design owners but do not have a bagging station. Please note that according to the provision 7.2.3.1.2 of ENplus[®] ST 1003, you would need to issue a bag design permission to the company bagging the pellets into the particular bag design.

If you have other questions related to the scheme's revision, [check out this Q&A document](#).

Do you know?

EU rules to guarantee that the products EU citizens consume do not contribute to deforestation or forest degradation worldwide. The new [Regulation on deforestation-free products](#) entered into force on 29 June 2023 and is expected to bring down greenhouse gas emissions and biodiversity loss. Operators and traders (among which wood pellet producers and traders) will have 18 months to implement the new rules. [Full information is available here](#).

The ENplus[®] Management organises the Market Surveillance Project - an initiative that aims to analyse ENplus[®] certified bags randomly taken from the market in order to assure compliance with the ENplus[®] standards. Anyone can contribute to the project by submitting a sample via [this form](#).

QUALITY MANAGERS *Training*

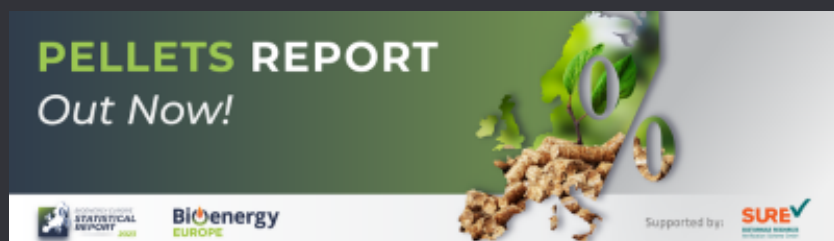

• [Brussels, Belgium](#) – 30.11.2023

The main focus of the training event will be the new requirements brought with the revised documentation. The quality managers of the certified companies should complete a training every certification period.

PELLETS REPORT *Out Now!*

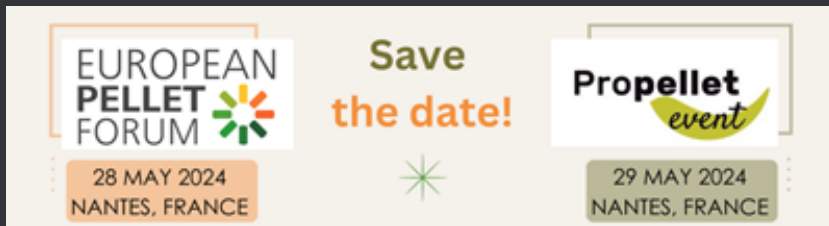

The Bioenergy Europe's Statistical Report: Pellets 2023 has been [published](#). The full report is available to

members only. [Learn here](#) how to become one.

The European Bioenergy Future (EBF) conference returns on 28 – 29 November 2023 at BluePoint Brussels (Blvd Auguste Reyers 80, 1030), with a rich programme and interesting pre- and post-conference events. [Learn more and register here.](#)

The 2nd edition of the European Pellet Forum will take place on 28 May 2024 in Nantes, France as part of the Carrefour International du Bois trade fair.
