Preface

ENplus® is a quality certification scheme for wood pellets that relies on a chain of custody from the pellet producer to the end customer. All companies in the supply chain who have physical contact with the pellets must be certified. Certified companies are identified by their ENplus® ID. The ENplus® ID must be annotated on the delivery documents and invoices throughout the entire supply chain. If ENplus® wood pellets are handled by a non-certified company, the pellets may not be sold as certified goods. Sub-licensing is only possible if the Non-certified Trader does not have his own storage and/or delivery equipment, has no physical contact with the pellets and does not contract any service provider to handle the pellets.

Agreement

The Certified Trader grants the Non-Certified Trader the permission to use the ENplus® ID of the Certified Trader for offerings and sales of bulk pellets of the quality class

ENplus A1®

ENplus A2®

ENplus B®

The right to do so is limited to the delivery of pellets that come from the Certified Trader and are delivered by the Certified Trader. The Non-certified Trader is not allowed to have physical contact with the pellets.

The Non-certified Trader is allowed not allowed to use the certification seal of the Certified Trader for promotion.

This agreement is valid for 12 months and can be extended for 12 months respectively.

Place, Date, Signature (Certified Trader)

Place, Date, Signature (Non-Certified Trader)

We are a world-leading, transparent, and independent certification scheme for wood pellets. From production to delivery, we guarantee quality and combat fraud along the entire supply chain.
